Spring/Summer Veg Plants

Easy to grow, organic plug plants in plastic-free packaging!

Most veg plants will arrive as bare-rooted plugs. No plastic!

Lettuces

Delivered late April - July

'Lollo Biondi' Lettuce
£4.99
(10 Organic Plants)

This variety has fabulous frizzy, crinkled and compact leaves. It's a great looker in the veg patch, and a reliable grower too. Harvest outer leaves regularly or wait to cut entire heads. Keep it cool or plant in the shade to prevent early bolting.

'Lollo Rossa' Lettuce
£4.99
(10 Organic Plants)

Lollo Rossa lettuce forms tight, frilly, deep maroon heads that stand in good condition for some time. You can cut as heads or pick a few leaves as needed. This is one of our favourites for the salad patch.

'Freckles' Lettuce
£4.99
(10 Organic Plants)

Freckles is easy to grow from our lovely young plants. It's heat tolerant, crisp and bolt resistant. It is unlike any romaine lettuce you will see. Harvest as 'cut & come again' leaves, or wait for the lettuce to mature.

'Buttercrunch' Lettuce
£4.99
(10 Organic Plants)

This variety of lettuce is the best of both worlds. It is halfway between a butterhead and a crisphead, with soft outer leaves and a crunchier heart. If you only have space for one variety, we'd recommend this one.

'Red Salad Bowl' Lettuce
£4.99
(10 Organic Plants)

A quick-growing 'cut & come again' lettuce that will provide a steady supply of stunning oak-shaped deep red leaves. Plant it in light shade and it should keep going right through the summer.

'Green Salad Bowl' Lettuce
£4.99
(10 Organic Plants)

You'll enjoy a good supply of frilly, light green leaves through the season with this quick-growing lettuce. It is slightly crunchy with a sweet flavour. Plant in light shade and use it as a 'cut & come again' lettuce to keep it going for months.

'Little Gem' Lettuce
£4.99
(10 Organic Plants)

Producing small compact plants with a crisp, sweet heart, this lettuce has a delicious sweet taste and is quick growing. Harvest as whole heads when they reach maturity.

Salads

Spring/Summer Veg Plants

Green Mizuna

£4.99
(10 Plants)

Mizuna is a popular, 'cut & come again' salad leaf with deeply cut, spicy flavoured leaves. It is easy to grow and well worth having in your veg patch over the spring and summer months. If you love wild rocket, you'll love this too.

Tree Spinach

£4.99
(10 Plants)

Arguably the most beautiful salad leaf you'll ever see! These deepen into a stunning magenta at the tips, and genuinely sparkle with a little gold dusting. Seeing is believing, so give them a grow and enjoy popping the pink leaves in your salads!

'Red Knight' Mizuna

£4.99
(10 Plants)

These 'cut & come again' salad leaves will add a splash of colour to your salads, as well as adding oodles of deep, peppery flavour. They are very easy to grow and will produce leaves right through the summer.

'Pancalieri' Endive

£4.99
(10 Organic Plants)

A frizzy, frilly feast of a plant! Harvest the leaves as a 'cut & come again' to add a pleasing crunch to salads, or wait until the whole head has matured. It tends to keep growing longer than most lettuces.

'Green Utah' Celery

£5.99
(10 Organic Plants)

This celery has really crisp, sweet stalks and is easy to grow. Just dig in plenty of compost and keep it well watered. It is a lovely bright green in colour and can boast good flavour. No need for blanching.

'Rosso di Treviso' Chicory

£4.99
(10 Organic Plants)

This variety of chicory will start off producing lettuce-like leaves before forming the classic tight red heads when the weather turns cooler in autumn. Keep it cool to prevent bolting, or plant it in semi-shade.

Wild Rocket

£4.99
(10 Plants)

A fantastic salad leaf with peppery, spicy flavour. Regularly cut the leaves back to the baby leaves in the centre and they will quickly come again, giving you a supply for months. Can be treated as a perennial as they readily self-seed after flowering.

'Frills' Mustard

£4.99
(10 Organic Plants)

These leaves give a mustardy punch to salads and other dishes. You can start harvesting as soon as the leaves reach 5-10cm and if you keep cutting back to the baby leaves in the centre it will keep producing more right through to autumn.

Celtuce

£4.99
(10 Organic Plants)

Celtuce is a stem-lettuce of Chinese origin. The leaves can be picked whilst young and used like a cut and come again lettuce. The stem has a mild, celery-like flavour that can be peeled and sliced thinly for salads. They will grow quite tall, to about 1m.

Red Veined Sorrel

£4.99
(10 Organic Plants)

Sorrel is a perennial plant, one of the last to die down for winter and one of the first to appear in spring. With a lovely lemony flavour for salads, this is a great addition to the kitchen garden. Plant in a permanent position for tasty leaves year after year.

Giant Red Mustard

£4.99
(10 Plants)

This plant produces decorative purple-red leaves with a delicious, fiery mustard flavour. You can add baby leaves, or chopped larger leaves, to salads for a punchy kick. It's also great for stir-fries or wilted down with spinach or chard as a side dish.

'Crystal Lemon' Cucumber

£5.99 (3 Organic Plants)

This old-fashioned cucumber will produce delightful round, pale yellow coloured fruits. With a particularly crunchy flesh, the cucumbers are juicy, mild and sweet. It will grow well outside, as long as it's planted out after the last frosts, so it's a good option if you don't have a greenhouse or polytunnel.

'Marketmore' Cucumber

£5.99 (3 Organic Plants)

An easy to grow, heavy cropping cucumber that will do well climbing up a bamboo support. This variety produces thick, dark green, rough-skinned fruits which can reach 20cm in length. It'll grow well in a greenhouse or polytunnel, or in a sunny, sheltered spot outside. Just dig in plenty of compost, water well and give it a liquid feed once flowers start to form.

Quick Growing Salad Collection

£29.99 (90 Organic Plants)

You'll be able to start harvesting within a few weeks. Contains x 10 each of the following*

| | |
|----------------------|---------------|
| Beetroot | Rainbow Chard |
| Buttercrunch Lettuce | Salad Mustard |
| Little Gem Lettuce | Spinach |
| Lollo Rosso Lettuce | Wild Rocket |
| Mizuna | |

Also available as a gift voucher

Spinach & Chard

Spring/Summer Veg Plants

'Perpetual' Spinach

£4.99 (10 Organic Plants)

A kitchen staple, perpetual spinach provides tasty leaves for you to enjoy throughout the seasons. As it grows simply cut the bigger outer leaves off at the base, and it'll keep producing more and more. As long as the slugs and caterpillars don't get to it, it'll carry on for ages. This would be one of our recommendations for novice gardeners as it is so easy-going.

'Bright Lights' Rainbow Chard

£4.99 (10 Organic Plants)

Rainbow Chard adds a burst of colour to your veg patch. It is a flavoursome, nutrient-rich vegetable that can produce leaves through summer and on into winter. Simply harvest larger, outer leaves regularly to keep it going for many months. If you love spinach, you'll love this.

'Rhubarb' Chard

£4.99 (10 Organic Plants)

Adding a splash of red to summer dishes with its stunning red veins, this chard is very easy to grow and looks fantastic. Cut the outer stems off regularly and it'll keep growing throughout the season. Slightly milder in flavour than Rainbow Chard.

'Bulls Blood' Leaf Beet

£4.99 (10 Organic Plants)

This not only looks amazing when growing with its dark red leaves, but is also a wonderfully versatile leaf that can be used to add sweet flavour to your salads or cooked down like spinach. Use it as a 'cut & come again' for a continuous crop until the end of autumn when you can pull up the plant to use the root as beetroot.

Peas

Delivered late April - July

Sugar Snap Peas

£6.99 (10 Organic Plants)

These scrambling plants are easy to grow and will produce delicious, round, podded types of sugar snap pea that you can eat raw in salads (or straight from the plant!) or lightly cooked in stir-fries. They will grow to approximately 1m tall, climbing up a support. The more you pick, the more they'll keep growing for an ongoing harvest during the summer.

'Kelvedon Wonder' Peas

£6.99 (10 Organic Plants)

This trusted favourite is very uniform in growth and produces deliciously sweet peas. Give the plants a nice twiggy stick or some chicken wire to climb up and they'll reach about 1m height. We find they don't often make it to the kitchen, as they make a good gardening snack!

'Carouby de Mausanne' Mangetout Peas

£6.99 (10 Organic Plants)

An old French variety of large, flat pods. This is a really good cropper that will keep producing for several weeks in the summer if you pick them regularly. They will grow to approximately 2.5m tall, scrambling up a support. They have beautiful, sweet-pea like flowers too, making them a lovely addition to the plot.

Gourmet Bean & Pea Collection

£24.99 (60 Organic Plants)

This collection of young plants will provide a delicious harvest of beans and peas. Contains:*
Borlotti Beans x 10
Cosse Violette French Beans x 10
French Green Beans x 10
Runner Beans x 10
Sugar Snap Peas x 10
Mangetout Peas x 10

'Purple Magnolia' Sugar Snap Peas

£6.99 (10 Organic Plants)

These plants will scramble up a trellis or support to approximately 1.5m tall. They produce beautiful purple pods that you can enjoy raw or steamed or stir-fried. Very eye-catching in the veg patch!

Beans

Spring/Summer Veg Plants

'Aquadulce Claudia' Broad Bean

£6.99
(10 Organic Plants)

Very easy to grow, this longer podded variety produces broad beans that are delicious when harvested young and tender. Give them a stake for stability - this will help them stand upright on those windy days.

'Barlotta Lingua di Fuoco' Borlotti Climbing Beans

£6.99
(10 Organic Plants)

Producing beautifully vibrant red and green pods, these climbing Borlotti beans are perfectly suited to our cooler climate. Either harvest young to use as you would runner beans, or let them mature and shell the beans before drying and storing in jars.

'Hestia' Dwarf Runner Bean

£6.99
(10 Organic Plants)

This variety is ideal for small gardens and large containers, reaching only 45cm tall. After a flurry of beautiful red and white flowers, they produce good yields of straight, stringless runner beans that you can keep picking for several weeks.

Beans

Delivered late April - July

'Enorma' Climbing Runner Beans

£6.99
(10 Organic Plants)

Runner Beans look glorious climbing up their wigwams with their lovely red flowers. Enorma is a quick growing variety that will produce a heavy crop of long runner beans for you to pick on many a summer's evening.

'Cobra' Climbing French Beans

£6.99
(10 Organic Plants)

This popular variety of French climbing bean produces green pods measuring about 7mm in diameter, that are long and snake-like as the name suggests. They can be harvested over a long period, and are particularly good harvested while they are still young. If you enjoy French Bean Salads, this is the bean for you!

'Cosse Violette' French Climbing Bean

£6.99
(10 Organic Plants)

Producing amazing purple flowers and pods, this French climbing bean is easy to grow, has a lovely flavour and will harvest over many weeks during the summer. We like to pick them just before the last splashes of green turn purple. Spoiler alert: they turn completely green again when cooked.

'Orinoco' Dwarf French Bean

£6.99
(10 Organic Plants)

These lovely yellow beans are a great addition to the veg patch, especially since they keep their colour when cooked, making for some beautiful dishes! You'll get a good crop from these dwarf plants - perfect if you're short on space.

'Purple Queen' Dwarf French Bean

£6.99
(10 Organic Plants)

You'll be surprised by how many beans you get from these little plants. They are lovely looking, with purple tinged foliage and deep purple pods that turn green once cooked. They are a great choice for a smaller plot.

'Cannellino' Dwarf Cannellini Bean

£6.99
(10 Organic Plants)

These are a must-grow for anyone who wishes to store dried cannellini beans to use in stews or cassoulet dishes over the winter months. Just let the bean pods grow and mature on the plant before harvesting and drying out.

'Tendergreen' Dwarf French Bean

£6.99
(10 Organic Plants)

Tendergreen is our best-selling variety of French bean for good reason - They are easy-going, virtually stringless, take up little space and usually produce a heavy crop. If you love French beans but don't have the space for climbing beans, then these are a great option.

'Blue Lake' French Climbing Bean

£6.99
(10 Organic Plants)

You can enjoy these beans in two ways - harvest regularly through the summer for classic green beans, or leave them to mature on the plant until the end of the season before shelling them to store the beautifully white haricot beans inside the pods. A double whammy crop!

Edamame Green Shell Beans

£6.99
(10 Organic Plants)

Edamame beans are immature soya beans that are considered a superfood. Easy to grow, you can more or less leave them to it before harvesting once the beans are visibly plump and the pods are still a vibrant green. You can steam them in the pods, or shell them to stir-fry.

Tomatoes

Spring/Summer Veg Plants

'Matina' Cordon Tomato

£6.99 (5 Organic Plants)

This variety is a good choice for growing outdoors if you don't have a greenhouse/polytunnel as they tolerate cooler temperatures well. The tomatoes are medium size, and usually crop fairly early in the season.

'Moneymaker' Cordon Tomato

£6.99 (5 Organic Plants)

This variety produces a good crop, hence its name, 'moneymaker'. It is a good choice for outdoor growing as long as you plant it out well after last frosts. It produces a medium sized tomato, usually towards the end of July/early August.

'Yellow Perfection' Cordon Tomato

£6.99 (5 Organic Plants)

'Yellow Perfection' crops for several months, making it a good option if you're short on space but want to enjoy your own home grown tomatoes right through summer and into autumn. The tomatoes are quite small in size, but a little larger than a cherry tomato.

Tomatoes

Delivered late April - July

'Tigerella' Cordon Tomato

£6.99 (5 Organic Plants)

Named for its distinctive red fruits with orange and yellow stripes, this tomato is well suited for cooler climates. The variety produces fruits of a medium size and is high yielding.

'Roma' Cordon Tomato

£6.99 (5 Organic Plants)

A lovely plum tomato variety that has few seeds, making them an excellent choice if you want to make tomato sauces and soups. They are good for salads too.

'Marmande Beefsteak' Cordon Tomato

£6.99 (5 Organic Plants)

If you love a classic Caprese tomato and mozzarella salad, then this is the variety for you! The large fruits ripen towards the end of summer, with all the rich flavour and texture you would expect from a beefsteak tomato.

See more varieties at rocketgardens.co.uk

'Golden Sunrise' Cordon Tomato

£6.99 (5 Organic Plants)

These large cherry tomatoes add an eye catching dash of colour to any summer salad. They are beautifully sweet in flavour, and a reliable cropper that will usually keep producing and ripening well into mid-Autumn.

'Saint Pierre' Cordon Tomato

£6.99 (5 Organic Plants)

Extend the tomato season with this late cropping variety. It is a lovely fleshy tomato, with great flavour not dissimilar to beefsteak types. It tends to be quite productive so you can expect a good crop if we get a reasonable summer.

'Gardener's Delight' Cordon Tomato

£6.99 (5 Organic Plants)

An easy to grow, large cherry tomato that is aptly named! They will do best in a greenhouse or polytunnel, but you can plant them outside in a sunny, sheltered spot, too. Keep them well watered, feed them once they start flowering, and you should be rewarded with a bumper crop.

'Outdoor Girl' Cordon Tomato

£6.99 (5 Organic Plants)

As the name suggests, this variety grows well outdoors. It's a good option for those living in cooler parts of the UK, and it crops quite early too. The tomatoes are a small/medium size, and a tasty option for salad lovers.

Colourful Tomato Collection

£14.99 (15 Organic Plants)

You'll be picking plenty of juicy tomatoes from summer into early autumn with this collection of mixed tomatoes. Contains:*

Tigerella x 5
Golden Sunrise x 5
Gardeners Delight x 5

'Tiny Tim' Bush Tomato

£6.99 (5 Organic Plants)

This is the best variety to grow for pots and hanging baskets. It also does well even in gardens that don't get full sun all day. It will grow to approximately 25-30cm tall, so doesn't need a support. Be sure to keep it well watered and give a regular liquid feed once the plant flowers to ensure the best crop of cherry tomatoes!

Chillies & Peppers

Spring/Summer Veg Plants

'Topepo Giallo' Sweet Pepper

£5.99
(3 Organic Plants)

These tomato-shaped peppers are lovely and sweet, ideal for stuffing (they're usually 7-8cm diameter) and the plants are very productive. An excellent choice for pots.

'Parade Red Long' Sweet Pepper

£5.99
(3 Organic Plants)

This pepper will produce a heavy crop of long, thin fruits with a mild, sweet flavour. They can be picked while still green or left until they turn deep red on maturity.

'Californian Wonder' Sweet Pepper

£5.99
(3 Organic Plants)

This is a really popular variety as it is such a good cropper with large square shaped fruits. They are best picked whilst still green for the flavour and crunch.

'Lemon Dream' Sweet Pepper

£5.99
(3 Organic Plants)

Beautiful yellow peppers that are quite small in size, but you'll get a good yield. The plant itself is quite compact too, so it is an excellent choice for pots and patio gardens.

Chillies & Peppers

Delivered late April - July

'Hungarian Hot Wax' Chilli Pepper

£5.99 
(3 Organic Plants)

Hungarian Hot Wax is one of the best quick-producing chillies for our cool climate. The fruits produce a large number of 10cm long, smooth bright fruits with a waxy look. Harvest at any point from green (mild), yellow (medium) or red (hot).

'Cayenne Long Slim' Chilli Pepper

£5.99 
(3 Organic Plants)

Produces a mass of pointed pods measuring approx 10cm which begin as light green and turn to fiery red. They are the perfect chillies for making into a hot sauce or you can dry them out.

'Biquinho Yellow' Chilli Pepper

£5.99 
(3 Organic Plants)

More sweet than spicy, these are very mild, pear-shaped chillies that grow in abundance. They are very small, and often described as fruity in flavour. A good addition to curries, tagines and stews for those that prefer less heat.

'Habanero Chocolate' Chilli Pepper

£5.99 
(3 Organic Plants)

One for heat lovers, the habanero chocolate chilli pepper is fiery! The chillies are very small, thumbnail size, but pack a punch.

'Padron' Chilli Pepper

£5.99 
(3 Organic Plants)

These are simply delicious freshly harvested, stir fried in a generous glug of olive oil with a pinch of sea salt. Every so often you'll come across one that is very hot, but most are lovely and mild and so tasty, especially if you harvest them while they're still small.

'Early Jalapeno' Chilli Pepper

£5.99 
(3 Organic Plants)

The fruits can be harvested green or allowed to mature to red. A characteristic 'corking' pattern of crack markings can develop on the skin of the fruit as it reaches full size. The plant grows upright and can reach 60cm high bearing fruit up to 7.5cm long. Medium heat.

'Scotch Bonnet Red' Chilli Pepper

£5.99 
(3 Organic Plants)

Producing small (4-5cm) but very hot fiery peppers these are not for the faint hearted. They have a squashed bell shaped fruit and are full of flavour and intense heat. Ripe scotch bonnets change from green to orange to red.

'Ring Of Fire' Chilli Pepper

£5.99 
(3 Organic Plants)

Producing heavy crops of small cone shaped fiery fruits, this is a very versatile chilli that gets hotter and hotter as it matures.

'Scotch Bonnet Yellow' Chilli Pepper

£5.99 
(3 Organic Plants)

Produces small but very hot peppers that are not for the faint hearted. They mature from a light green colour, to a beautifully bright yellow.

'Orange Habanero' Chilli Pepper

£5.99 
(3 Organic Plants)

Habanero peppers may be small but they are also fiery and are among the hottest chili peppers that you can get. With small tapering fruits 2-4cm long, these fruits start out green and turn to pale orange when ripe.

'Serrano' Chilli Pepper

£5.99 
(3 Organic Plants)

For anyone who'd like to grow a classic Mexican chilli that is packed with heat, this is a step up from the jalapeno! Harvest them green or red - they get hotter as they ripen.

See more varieties at
rocketgardens.co.uk

Sweetcorn, Artichokes & Aubergine

Spring/Summer Veg Plants

'Sweet Nugget' Sweetcorn

£5.99 (10 Organic Plants)

Sweetcorn is so much tastier when homegrown. This popular and reliable variety is lovely and sweet. It produces cobs approximately 20cm in length. Plant in blocks rather than in a single row to aid wind pollination and make sure you get full, plump kernels when you peel back the husks.

'Minipop' Baby Corn

£5.99 (10 Organic Plants)

If you are short of space, these plants can be planted much closer together than normal sweetcorn and do not need to be planted in blocks. As you harvest them before they are pollinated, while the tassels are still blonde. They're very popular with children, too!

'Green Globe' Artichoke

£5.99 (5 Organic Plants)

Producing a tight globe-shaped, green and purple head, these plants look and taste fantastic. Artichokes are reliable croppers and you will be able to harvest from these plants for about 4-5 years. It's always worth leaving a few artichokes on the plant to open up into beautiful purple flowers that the bees go mad for!

'Black Beauty' Aubergine

£6.99 (5 Organic Plants)

Home grown aubergines are an absolute delight. This variety is well suited to the British climate. Finding these black jewels in your garden at harvest time is always a real treat. Best grown in a greenhouse so that the temperature is warm enough for them.

Courgettes & Summer Squash

Delivered late April - July

'Green Bush' Courgette

£5.99
(3 Organic Plants)

This is a bush variety, which means that plants are large, robust and vigorous but stay compact without sprawling. You can expect a good crop of classic green courgettes right through summer and into autumn.

'Atena Polka' Yellow Courgette

£5.99
(3 Organic Plants)

This easy-to-grow bush variety will produce beautiful, deep yellow fruits giving great colour to your garden. It's a reliable cropper, you'll be harvesting them for weeks on end through summer and autumn.

'Genovese' Courgette

£5.99
(3 Organic Plants)

With pale, mottled light green skin, these courgettes tend to start cropping a little earlier in the season (if the weather is good, of course!) It is a bush variety so will not take up too much space.

'Tondo Chiara di Nizza' Courgette

£5.99
(3 Organic Plants)

A delightful, round shaped courgette which is pale green in colour. It is highly productive so you'll get a great crop. The courgettes should be cut at about 10 cm diameter - they're great for roasting and stuffing.

Colourful Courgette Collection

£12.99
(12 Organic Plants)

You'll enjoy some beautiful summer dishes from this collection with 3 plants of each of these super tasty and easy-to-grow varieties.*

Green Bush x 3
Atena Polka x 3
Tondo Chiara di Nizza x 3
Tromboncino Albenga x 3

'Tromboncino Albenga' Courgette

£5.99
(3 Organic Plants)

This unusual looking summer squash is usually harvested young, as a courgette, but can be left to ripen for use as a winter squash (at this point it tastes like a mild butternut). It's a climbing variety that will do well with a trellis to climb, and you usually get quite a few from a single plant!

'Custard White' Summer Squash

£5.99
(3 Organic Plants)

This interesting and very attractive patty pan bush variety produces creamy white fruits with a scalloped edge. They are more like a courgette in texture and have similarly delicate skin - grill on the BBQ or roast them whole. Great with goats cheese, chilli and garlic.

Pumpkins & Squash

'Little Gem' Winter Squash

£5.99
(3 Organic Plants)

This trailing winter squash produces mini, acorn-shaped fruits measuring approximately 10cm. It is a good choice for smaller plots if you want a squash that will easily climb a trellis. They tend to be easy to peel, and they are the perfect size to stuff and roast whole. Great if you're cooking for yourself or just one other.

'Waltham' Winter Butternut Squash

£5.99
(3 Organic Plants)

A classic butternut squash that does well in the British climate. It is a trailing variety that normally produces four or five squashes per plant. The fruits can grow up to 20cm long if the weather is warm enough and they are well fed through the summer.

Spring/Summer Veg Plants

'Marina Di Chioggia' Winter Squash

£5.99
(3 Organic Plants)

We like this one for a Hallowe'en display with its brilliant knobby skin! Don't carve it though as it is a great storer and best eaten in the winter months long after harvesting. The fruits are quite big (around 4-5kg) with vivid orange flesh that roasts well. Cut into chunky wedges and roast with the skin on, then peel when cooked.

'Buttercup' Winter Squash

£5.99
(3 Organic Plants)

This variety of trailing winter squash has firm yellow/orange flesh and a deep nutty flavour. With its dark green skin it is often overlooked in favour of more colourful varieties, but they are great to cook with and by far one of our favourites for storing well and offering great texture/flavour. The fruits grow to approximately 1.5kg.

'Musquee de Provence' Winter Squash

£5.99
(3 Organic Plants)

This trailing variety produces large round, semi-flat fruits that can weigh up to 10kg. The skin develops golden streaks and patches as it matures. The flesh is a rich orange colour with a nutmeg-like flavour. They store well and you can happily cut off a quarter at a time to cook with, or use them for carving at Halloween.

'Hundredweight' Pumpkin

£5.99
(3 Organic Plants)

This is the variety to choose if you want to grow a real whopper! This can produce beautiful round, deep orange fruits of up to 25kg! To grow these enormous fun fruits, you will need to allow 2 metres between plants and thin out smaller fruits as they form.

Pumpkins & Squash

Delivered late April - July

Pumpkin & Squash Patch Collection

£19.99
(15 Organic Plants)

A lovely collection of pumpkins, winter and summer squashes that'll need approx 12 square metres space. Contains:*

- Jack O'Lantern Pumpkin x 3
- Custard White Summer Squash x 3
- Waltham Butternut Squash x 3
- Uchiki Kuri Winter Squash x 3
- Sweet Dumpling Winter Squash x 3

'Turks Turban' Winter Squash

£5.99
(3 Organic Plants)

We love this trailing variety - it is so fun to grow with the weird and wonderful turban-like shape and colourful skin. You can cut into wedges fairly easily and roast with the skin on, and peel once cooked. The flesh is a soft orange colour, and quite similar in texture and flavour to butternut squash.

'Uchiki Kuri' Winter Squash

£5.99
(3 Organic Plants)

A lovely looking trailing winter squash that you can train up a trellis or allow to sprawl on the ground. Each plant forms three to five small pumpkin-like fruits averaging 1.5kg. The fruits are an intense orange red with a golden flesh and have a sweet, nutty flavour. This is by far one of our favourites to grow and cook.

'Sweet Dumpling' Winter Squash

£5.99
(3 Organic Plants)

This is a very versatile trailing squash with a creamy orange flesh and very sweet flavour. Perfect for baking pumpkin pies or making muffins. You can also cook the small fist-sized squashes whole, either stuffed or roasted, as a single serving. In a good season you can get as many as twelve small fruits per plant!

'Jack O'Lantern' Pumpkin

£5.99
(3 Organic Plants)

This variety is ideal for your menacing masterpieces at Halloween. But a pumpkin is not just for Halloween, these pumpkins are surprisingly tasty and versatile and also store well over winter. If you want them to grow nice and big, prune out some of the smaller fruits to allow the larger ones to get even bigger.

Leeks, Onions & Fennel

Spring/Summer Veg Plants

'White Lisbon' Spring Onion

£6.99
(20 Organic Plants)

These spring onions have lovely, long, white stems with green tops. They form a small bulb which has a delicious mild flavour. Spring onions are great for growing if you have limited space available as you can pack them in tightly.

'Bedfordshire Champion' Onion

£6.99
(20 Organic Plants)

This variety is reliable and well suited to the UK climate with late summer maturity. It produces large globe shaped, golden brown skinned bulbs with a crisp, white flesh and mild flavour with excellent storing capabilities.

'Red Baron' Onion

£6.99
(20 Organic Plants)

This variety will produce firm, flattish-round bulbs of a beautiful dark purple colour and red-tinged flesh. An excellent cropping red onion that will store well so that you can enjoy your own onions in home-cooked food for several months after harvesting.

'Musselburgh' Leek

£6.99
(20 Organic Plants)

Large, handsome leeks with thick stems and dark green leaves. It is reliable, easy to grow, winter hardy, with good disease resistance and an excellent strong flavour. It will be ready for harvesting from autumn through to the following spring.

'Giant Winter' Leek

£6.99
(20 Organic Plants)

Giant Winter is an excellent late variety producing heavy, thick stems that will hold well in the ground for a long time and are winter hardy. Lift them any time from autumn to early spring the following year.

'Zefo Fina' Bulb Fennel

£6.99
(10 Organic Plants)

This variety produces small-to-medium sized bulbs to harvest in late summer. The feathery foliage looks lovely in the veg patch, and is useful as a filler for cut flowers too. Bulb fennel is very easy-going - just pop it in the ground in fertile soil, keep it well watered and it should do well.

Delivered from
February - May

Seed Potatoes

More varieties at
rocketgardens.co.uk

1ST EARLIES

'Arran Pilot' £4.99

(10 Organic Seed Potatoes)

These grow quickly and are usually ready for harvest in mid June if you've planted in March. You should get an impressive crop of quite pale, yellow skinned tubers that are versatile - boil, roast, mash - whatever you fancy!

'Rocket' £4.99

(10 Organic Seed Potatoes)

Named for its speed of growth, Rocket potatoes will produce a fairly heavy crop very early on in the season, often as early as the first week or so of June. Lovely round, waxy new potatoes.

'Colleen' £4.99

(10 Seed Potatoes)

Colleen is a great all-round Irish potato with yellow flesh and skin and has a good disease resistance. If early blight is a problem in your part of the UK, this is a good variety to choose.

2ND EARLIES

'Bambino' £4.99

(10 Organic Seed Potatoes)

Small, smooth tubers with cream flesh. Good flavour and smooth waxy texture, ideal for salads. Good resistance to eelworm, scab and blight.

'Nicola' £4.99

(10 Organic Seed Potatoes)

A second early salad potato with well-shaped oval tubers. The skin is thin with cream coloured flesh. It's one of the best tasting new potatoes!

'Charlotte' £4.99

(10 Seed Potatoes)

Charlotte is a very popular salad potato that is quite waxy in texture, and produces long, oval tubers. A good, reliable variety that is fairly resistant to blight.

MAIN CROP

'Setanta' £4.99

(10 Organic Seed Potatoes)

Setanta is a new Irish variety of potato with the ever-popular Rooster as one of its parent lines, which has been acclaimed for its high resistance to blight. Good for mash, roasts and chips.

'King Edward' £4.99

(10 Organic Seed Potatoes)

This is a relatively late cropping variety that is usually ready to harvest in September/October. It is one of the more popular varieties to grow, largely because of the flavour - it is great for roast potatoes and for mash.

'Sarp Mira' £4.99

(10 Organic Seed Potatoes)

A fantastic potato to grow with good blight resistance, good slug resistance and vigorous foliage that helps to keep weed growth suppressed. Produces high yields of tasty, dry, floury tubers that store very well.

Root Vegetables

Spring/Summer Veg Plants

'Sweetbell' Turnip

£5.99 (10 Organic Plants)

This is a fast growing salad turnip, and with its pretty purple-topped roots and crisp texture, it's a real winner! Grate it, enjoy it sliced thinly in salads, or chop it up into batons and add to stir-fries.

'Marian' Swede

£5.99 (10 Organic Plants)

Swede is a hardy root vegetable that is easy to grow so long as they are watered regularly to avoid splitting. It has a globe shape with purple skin and yellow flesh within. Perfect for making homemade Cornish pasties, or cooking in warming casseroles and soups.

'Giant Prague' Celeriac

£5.99 (10 Organic Plants)

This variety of celeriac produces round roots with a slightly flattened base and medium green foliage. It stores well over the winter. It is easy to grow, but be sure to keep the soil consistently moist to allow the roots to swell properly.

'Early Nantes' Carrots

£5.99 (10 Organic Plants)

These Nantes Carrots have a lovely sweet flavour. They're a bit of a classic in the carrot world as they are a really great, all-round variety. Make sure your soil is well dug before planting, and you should get a good sized crop. Our carrot plants come in biodegradable pots to minimise root disturbance when transplanted.

'Countess' Parsnip

£5.99 (10 Organic Plants)

A very typically British vegetable, this main crop variety of parsnip has a good disease tolerance and is high yielding. We supply our parsnip plants in small biodegradable pots to minimise disturbance to the root when you transplant them. Be sure to dig over soil well before planting and you should get good-shaped roots to harvest over the winter.

Colourful Carrots

£5.99 (10 Organic Plants)

This fun and easy to grow colourful carrot collection contains purple, orange and yellow carrots, giving you a lovely burst of colour to brighten up any dish. It is fun to pull them up with children and see which colour they are. We supply our carrot plants in biodegradable pots to minimise root disturbance when transplanted, but dig over the soil well before planting to avoid wonky shapes!

Root Vegetables

Delivered late April - July

'Boldor Golden' Beetroot

£4.99 (10 Organic Plants)

This super tasty, golden beetroot variety produces smooth-skinned yellow roots. It's a good one for growing in pots and containers and also for adding a bit of a novelty factor to the veg patch. If you enjoy cooking up roast beetroot dishes then this is a great choice as it looks fab on the plate!

'Detroit' Beetroot

£4.99 (10 Organic Plants)

This is a popular, tasty variety of beetroot that produces smooth skinned, dark red, large vegetables. Great for growing in pots as you can plant them close together. You can use the leaves, too, by cooking them like chard or spinach.

'Chioggia' Beetroot

£4.99 (10 Organic Plants)

A traditional Italian beetroot that has beautiful, decorative white rings when sliced. It is very tender with a delicious flavour when cooked. A great choice if you're a bit of a foodie!

'Cylindra' Beetroot

£4.99
(10 Organic Plants)

This cylindrical beetroot has a smooth skin and dark purple-red flesh. This unique variety has a very fine, smooth texture with little fibre. The root maintains its sweetness and tenderness over a long growing season and does not get woody. Great for growing in pots.

Root Vegetable Collection

£19.99 (60 Organic Plants)

A great selection of British favourites to start you off, containing:*

Beetroot x10
Carrots x 20
Celeriac x 10
Parsnip x 10
Swede x 10

Beetroot Mix

£9.99
(30 Organic Plants)

You can enjoy growing 3 different beetroot varieties in this mixed set, which contains the following plants:
Detroit (Traditional Red) x 10
Boldor (Golden) x 10
Chioggia (Italian Striped) x 10

Cauliflower & Kale

Spring/Summer Veg Plants

'Delicacy Purple' Kohl Rabi

£5.99
(10 Organic Plants)

A fun and slightly unusual vegetable to grow, kohl rabi is grown like any other brassica - best netted from pigeons and butterflies! It tastes great steamed or quickly stir fried. You can try it in a slaw, too.

'All Year Round' Cauliflower

£5.99
(10 Organic Plants)

This variety is a very popular, all season cauliflower which can be set closer together than others to produce tasty small heads. It is easier to grow than most other varieties. Be sure to firm it in well when you plant it.

'Romanesco' Cauliflower

£5.99
(10 Organic Plants)

These plants will produce novel, cornet-like, jade green spears which are beautiful to look at, adding structure to your garden. They are also delicious to eat. Try them in a bechamel sauce or simply roasted.

'Green Curled Dwarf' Curly Kale

£5.99
(10 Organic Plants)

This is a very popular, compact curly kale. It is an extremely nutritious leafy veg that looks great and requires little attention to produce a good crop. This variety of kale is exceptionally hardy and will keep going into winter quite happily.

Cabbage & Broccoli

Delivered late April - July

'Vertus' Savoy Cabbage

£5.99
(10 Organic Plants)

This variety has rounded heads of dark green ruffled leaves that have a subtle flavour compared to other savoy cabbages. It's a very hardy variety and stands well without splitting.

'Red Drumhead' Red Cabbage

£5.99
(10 Organic Plants)

Easy to grow, decorative and delicious, this variety will produce a good sized, solid and tight round head with crisp hearts of purple red colour. Firm the plants in well, keep them watered through the summer and harvest in autumn and winter.

'Spring Green' Cabbage

£5.99
(10 Organic Plants)

This is a dwarf variety that can be planted quite close together (25cm). When planted in Spring you can expect to harvest it from July through to September. You can harvest them as delicious, small, tender cabbages or a little later on once the heads have matured.

'Golden Acre' White Cabbage

£5.99
(10 Organic Plants)

This is a super, sweet variety with crisp thick leaves, giving you a crunchy texture when shredded. It is easy to grow and stores well in the fridge after harvesting. Firm it in well and keep it well watered and you should get a good crop.

Gourmet Brassica Collection

£19.99 (60 Organic Plants)

This collection contains a selection of cauliflower, cabbages and kales that are packed full of nutrients and are considered some of the best superfoods around. Contains the following organic plants:*

Red Cabbage x 10 Romanesco Cauliflower x 10
Cavolo Nero x 10 Kohl Rabi x 10
Curly Kale x 10 Purple Sprouting Broccoli x 10

'Red Russian' Kale

£5.99
(10 Organic Plants)

You get really lovely tones of colour on this plant as it grows, making it a very attractive addition to your veg patch. And of course it's uber healthy too and easy to grow. We're sure you will enjoy it just as much as we do!

'Nero di Toscano' Cavolo Nero

£5.99
(10 Organic Plants)

This Italian kale has beautiful, dark green leaves and looks really striking in the vegetable patch when it's fully grown. In fact, many people choose to plant it in borders for exactly that reason.

'Evesham Special' Brussels Sprouts

£5.99 (10 Organic Plants)

This traditional variety produces large quantities of medium size, solid sprouts which crop from October to Christmas. Once planted, keep it well watered and add a stake or earth up as the plant gets taller to keep it stable in stronger winds.

'Green Sprouting' Calabrese Broccoli

£5.99 (10 Organic Plants)

This delicious family favourite produces lovely dark green heads which are followed by a succession of secondary side shoots once the main head has been harvested. Plant early or late in the season and you'll still be able to enjoy a good crop.

'Early' Purple Sprouting Broccoli

£5.99 (10 Organic Plants)

An extremely healthy and tasty vegetable that is so much more flavoursome when harvested and eaten fresh from your own garden. This variety is great to plant in spring/summer for a harvest between February and May, when there's not much else to harvest!

Order Online Nov - Jul | Delivered Apr - Jul

Potted Herb Plants

A fab addition to your kitchen garden.

Great for pots & beds

Our herbs arrive in 8.5cm biodegradable pots. No plastic!

Potted Herb Plants

Delivered late April - July

Rosemary

Perennial
£7.99 (3 Organic Plants)

This delicious, culinary variety of Rosemary will produce upright spikes with deep green foliage and blue flowers. Rosemary can create a fantastic, decorative and fragrant hedge if you plant a series of plants about 2 feet apart.

'Common' Thyme

Perennial
£7.99 (3 Organic Plants)

Thyme is highly scented and good at attracting bees and other beneficial insects to the garden. This is the most popular variety of common thyme which has dark green, upright, bushy foliage with pretty, pink flowers.

'Common Broadleaf' Sage

Perennial
£7.99 (3 Organic Plants)

Sage is an evergreen herb with highly aromatic leaves. This lovely common broad leaf variety of sage is arguably the best for culinary uses. Sage is good for bees and other insects.

'Curly' Parsley

Annual
£7.99 (3 Organic Plants)

This is the most common type of parsley producing tight, emerald green, curly leaves. Easy to grow and it'll come back year after year. Harvest leaves regularly and it'll get nice and bushy. Good for shade.

'Flat Leaf' Parsley

Annual
£7.99 (3 Organic Plants)

Also known as Italian parsley, flat leaf parsley has dark green leaves and a pungent, sweet flavour. Harvest it as needed, but fairly regularly so that the plants keep sprouting new stems. It will happily grow in shady areas too.

Chives

Perennial
£7.99 (3 Organic Plants)

A delicious herb that will come back year after year producing beautiful, edible, pale mauve flowers in the summer. This herb looks great in your garden and on your plate, a must have for any kitchen garden.

Potted Herb Plants

Delivered late April - July

'Fernleaf' Dill

Annual
£7.99
(3 Organic Plants)

This is a dwarf variety growing to just 45cm in height, with a slow bolting habit, so you have a longer cutting time. Dill has an aniseed flavour and is perfect for fish, or mixed with mayo as a dip.

'Garlic' Chives

Perennial
£7.99
(3 Organic Plants)

Similar to normal chives, and used in much the same way, but the leaves are flatter with a white flower that has a delicate garlic flavour. Very decorative and worth growing in borders too.

Summer Savoury

Annual
£7.99
(3 Organic Plants)

Said to aid digestion, some knowing cooks add the leaves to bean dishes to reduce the after-effects! We prefer to use it to add a peppery, almost thyme-like flavour to stews, soups and meat dishes.

Hyssop

Perennial
£7.99
(3 Organic Plants)

Hyssop produces rich blue, clustered flowers that are great at attracting bees and butterflies to the garden. Use sparingly in pasta dishes, stews and soups for a lemony tang.

Potted Herb Plants

Delivered late April - July

Greek Basil

Annual
£7.99
(3 Organic Plants)

Such a pretty herb and easy to grow too. You'll get loads of flavour from just a few leaves and some pretty flowers later in the summer. Perfect for growing on a windowsill or sunny patio.

Apple Mint

Perennial
£7.99
(3 Organic Plants)

This is a softer variety of mint to garden mint, both in flavour and texture with its gently furry leaves! Named for the mild apple-like scent, it is a great one to grow for herbal teas and desserts like fruit salad, or grilled peaches.

Lemongrass

Perennial
£7.99
(3 Organic Plants)

If you enjoy Thai style food then you absolutely have to give this a try in the garden! It grows really well in pots on a sunny windowsill or a warm, sheltered patio and it's very decorative too. Harvest it by cutting off stalks as you want to use them.

Lavender

Perennial
£7.99
(3 Organic Plants)

A garden favourite with its fragrant flowers that are very attractive to bees, lavender is a bit of a must-have when it comes to herbs. It likes a nice, sunny spot and will do well in drier soils. Use it to add a bit of flavour to baking - shortbread and cakes. Yum.

Chocolate Mint

Perennial
£7.99
(3 Organic Plants)

Producing pretty brown/purple leaves with a wonderfully minty chocolate taste and fragrance, this is a fun addition to the herb garden. Best grown in pots as it'll spread quickly.

Garden Mint

Perennial
£7.99
(3 Organic Plants)

One of the most popular culinary mints with large leaves and pretty pink, lilac or white flowers appearing in the summer. Best grown in a pot to stop it taking over the entire bed as it likes to spread.

Ginger Mint

Perennial
£7.99
(3 Organic Plants)

Gold splashed leaves that have a spicy ginger scent, this is a great one to grow for adding to cocktails and homemade lemonades as well as puddings., particularly fruit salads or chopped and sprinkled over a slice of melon on a hot summer's day.

Pineapple Mint

Perennial
£7.99
(3 Organic Plants)

Pineapple mint plants are one of the most attractive varieties of mints, producing beautiful green leaves edged with white. As the name suggests, this mint has a hint of pineapple in flavour, and it is extremely versatile too. Grow in pots as it will spread a lot.

Chervil

Annual
£7.99
(3 Organic Plants)

A delicate, leafy herb that is often confused with parsley, this annual has an unusual aniseed flavour and is very rich in vitamins. It goes well with chicken and white fish.

Lemon Verbena

Perennial
£7.99
(3 Organic Plants)

This is a real treat to grow for its lemon scented leaves. We'd recommend growing in pots so you can move it under cover as the weather turns cooler in autumn. Pick a few leaves and brew them in hot water for the most delicious herbal tea. Great for ice cream and cake baking too!

Vietnamese Coriander

Perennial
£7.99
(3 Organic Plants)

This is a popular, shrubby herb used in Asian cooking. It's very punchy in flavour and has quite a striking look. It's a great alternative to traditional coriander that we're so used to. The flavour is stronger and it's less prone to bolting. Will grow to approx 75cm.

Lovage

Perennial
£7.99
(3 Organic Plants)

A delicate, leafy herb that is often confused with parsley, this annual has an unusual aniseed flavour and is very rich in vitamins. It goes well with chicken and white fish.

Potted Herb Plants

Delivered late April - July

'French' Tarragon

Chamomile

Purple Sage

Pineapple Sage

Bay

'British' Basil

'Cilantro' Coriander

'Greek' Oregano

Perennial
£7.99
(3 Organic Plants)

This is a herbaceous perennial which can be over-wintered in mild areas. The beautiful plants foliage has an aniseed flavour that is perfect with white fish and chicken dishes.

Annual
£7.99
(3 Organic Plants)

Producing pretty daisy-like, white and yellow flowers, this herb is bursting with healthy vitamins and looks wonderful when in full bloom. Great for making a calming cuppa.

Evergreen
£7.99
(3 Organic Plants)

This is such a beautiful variety of sage that looks fab growing in a herb bed or in the borders, providing purple and green foliage all year round. The bees will love the flowers that come out in summer. Great for stuffings, paired with squash, and to flavour nut roasts.

Perennial
£7.99
(3 Organic Plants)

Named for the strong pineapple scent of the leaves, you might prefer to grow this bushy variety of sage for its spectacular, spiky red flowers which earn it the alternative name of Scarlet Pimpernel. Try using the leaves in ice cream and fruit salads.

Evergreen shrub
£7.99
(3 Organic Plants)

Bay is a wonderful plant to have in the garden, ready to pick a couple of leaves to add flavour to soups, stews and gravies. Either use the leaves fresh or dried. It will grow well in pots if you keep it well trimmed or you can plant it straight into the ground to let it grow a little more freely.

Annual
£7.99
(3 Organic Plants)

This variety has been specifically selected for growing outside in the UK as it's resistant to cooler conditions. It has a bright green leaf that doesn't discolour and keeps its recognisable intense flavour.

Annual
£7.99
(3 Organic Plants)

This tender, leafy herb is an absolute essential for those who love Asian cooking...chop up the leaves and stems for some very tasty stir-fries and curries. It'll grow well in nice deep pots, preferably somewhere that it gets the morning sun and a bit of shade later in the day.

Perennial
£7.99
(3 Organic Plants)

With its lovely bright green leaves and incredible aroma, oregano is a very attractive plant for the garden. It's a perennial so will keep you going for years. Cut it back in winter for fresh stems to grow the following spring. Great for pasta sauces, pizza toppings and roasts.

Bronze Fennel

Wild Bergamot

Trailing Rosemary

Feverfew

'Pot' Marjoram

Japanese Mint

African Blue Basil

Lemon Balm

Perennial
£7.99
(3 Organic Plants)

Bronze Fennel has a sweet aroma and a delicious aniseed flavour that goes well with white fish. It'll grow quite big, to approximately 1m-2m high, and 1m wide, so give it plenty of space.

Perennial
£7.99
(3 Organic Plants)

This is a beautiful North American wild flower with a strong scent and very attractive coloured flowers that grows to approx. 1m in height. The leaves are fantastic for flavouring meat or to make a herbal tea.

Evergreen
£7.99
(3 Organic Plants)

A great choice for hanging baskets (especially if you tend to forget about watering them!) or for trailing over a wall. Rosemary is an evergreen, and this variety will produce blue flowers in spring.

Perennial
£7.99
(3 Organic Plants)

Long used medicinally for making herbal teas with the leaves for fever and migraine, the best thing about Feverfew is the carpet of daisy-like flowers that appear throughout summer. They are great for bees and are good for cutting too!

Perennial
£7.99
(3 Organic Plants)

This traditional, culinary marjoram will produce lovely pink or white flowers from mid-summer to early autumn above the strongly aromatic, dark green leaves.

Perennial
£7.99
(3 Organic Plants)

An unusual looking mint plant, this variety is grown for the medicinal use of the menthol essential oils found in its leaves. It can be used in similar ways to traditional mint varieties to make herbal teas, and it's also a great one to use for a steam inhalation if you have a bad cold!

Perennial
£7.99
(3 Organic Plants)

Not only a great culinary variety, this basil also is a beautiful garden plant, producing attractive dark purple veined leaves and tall fragrant blue-purple flower spikes.

Perennial
£7.99
(3 Organic Plants)

Lemon Balm produces beautiful bright green leaves which have a lovely lemony flavour and fragrance. Lemon Balm will die back in winter and reappear the following spring. Best grown in pots as it tends to spread.

Attract bees, pollinators and natural predators to your plot

Sent as bare-rooted plug plants. No plastic.

Flowers & Companion plants

Delivered late April - July

Bee & Butterfly Wildflower Plugs

£19.99 (Small - 50 plugs)

£29.99 (Large - 100 plugs)

Bring on the bees!

With several different wildflower seedlings per plug, these pollinator-friendly flowers will do wonders attracting vital insects to the garden. Plant them in a dedicated patch of the garden and leave them to grow and self-seed through the season. It'll look amazing!

Contains a lucky dip mix of the following plants:

- | | | |
|-------------|--------------|---------------|
| Red & White | Cranesbill | Wild Marjoram |
| Clover | Poppy | Vetch |
| Cornflower | Ragged Robin | Borage |
| Daisy | Teasel | And many |
| Foxglove | Yarrow | more... |

Please see rocketgardens.co.uk for full details

Each plug contains several plant varieties that will germinate and bloom at different times

ALSO AVAILABLE AS A GIFT VOUCHER

Flowers & Companion plants

Delivered late April - July

Companion Plant Pack

£12.99 (Small - 30 plugs)
£19.99 (Large - 60 plugs)

A natural way to keep pests from munching your crops!

Simply plant the companions in amongst your pots and beds.

Marigolds and Tagetes will attract ladybirds and lacewings, so plant them anywhere where aphids could be a problem. Nasturtiums can be planted near brassicas to deter cabbage white butterflies.

| | |
|------------------------------|------------------------------|
| Small Pack contains:* | Large Pack contains:* |
| Marigold x 10 | Marigold x 20 |
| Nasturtium x 10 | Nasturtium x 20 |
| Tagete x 10 | Tagete x 20 |

*contents may change slightly depending on the season

Marigold

Annual
£5.99
(10 Plants)

Marigolds have long been a veg patch favourite for encouraging bees and other pollinators, as well as helping to protect your crops from pests like aphids. Dotted a few clusters here and there amongst your crops will really bring your plot to life.

Tagete

Annual
£5.99
(10 Plants)

These pretty flowers have a strong scent, making them a great companion to deter aphids. They also help to attract ladybirds and pollinators. Pop a few in the greenhouse with tomatoes, and outside with beans and other crops.

Comfrey

Perennial
£7.99
(3 Organic Plants)

We'd highly recommend having a small, dedicated patch of comfrey in your plot. It is totally fuss-free, will encourage bees, and it is highly nutritious for your soil - chop the leaves and soak in a bucket of water for 1-2 weeks to make your own organic liquid feed, then pop the soggy leaves on the compost pile to enrich it or use them as a mulch.

Flowers & Companion plants

Delivered late April - July

Edible Flower Pack

£19.99 (40 Plug Plants)

Pretty flowers for cake decorating, cocktails and salads.

This collection of edible flower seedlings will provide an abundance of pretty blooms to adorn anything you are cooking. The little blue flowers of borage have a lovely cucumber-like flavour, and look great floating in a gin & tonic! Calendula petals are a vibrant orange and with their mild flavour can be sprinkled over any dish for a zingy look. Viola flowers just keep coming all season in all sorts of different colours, they look so sweet in salads.

Contains the following plants:*

Borage x 10
Violas x 10
Calendula x 10
Nasturtium x 10

*contents may change slightly depending on the season

Borage

Annual
£5.99
(10 Organic Plants)

Plant borage in pots with your veggies or in amongst borders. The pretty blue flowers are edible - just pull them off lightly and add to salads or drinks. They have a subtle cucumber flavour, and they are really great for bees too. They'll self seed well if you let them, so you can get lots more blooms the following season.

Viola

Annual
£5.99
(10 Plants)

You'll get such a wonderful display of summer colour when you grow violas. The flowers can be picked and thrown into salads, or try glazing them to use as decoration for cakes. They also look very sweet as cut flowers for a miniature vase and will last several days. Great for growing in pots.

Calendula

Annual
£5.99
(10 Plants)

If we were to choose just one flower to grow in amongst our veg patch, calendula would be it - the petals are edible and look fab sprinkled over salads, risotto and pasta dishes; they attract bees and butterflies and make an excellent companion plant; and they are great for cutting too.

Nasturtium

Annual
£5.99
(10 Plants)

Nasturtiums are an excellent companion for the veg plot. They provide a little ground cover, helping to keep weeds down; act as a sacrificial crop to brassicas, helping to lure away cabbage white butterflies; they encourage bees; and both the flowers and leaves are edible, adding peppery flavour to salads.

Autumn Veg Plants

These veg plugs can be planted out in autumn to grow through winter

Delivered September - October

'Arctic King' Winter Lettuce

£4.99
(10 Organic Plants)

This butterhead variety was bred especially for the winter. If it's mild it'll probably mature in the new year ready for you to harvest in March, and will do even better if you can pop a cloche or fleece over it.

'Marvel of Four Seasons' Winter Lettuce

£4.99
(10 Organic Plants)

This hardy variety will cope with any conditions that the UK throws at it! It's a very pretty, tasty lettuce that should be harvestable before Christmas if mild, especially if grown under a cloche or fleece.

'Winter Density' Winter Lettuce

£4.99
(10 Organic Plants)

This is a cos style of lettuce that you'll really enjoy if you like Little Gem lettuce. It's got a nice crisp texture and should mature in early spring for some fresh salads as soon as the sun shines. It'll be even earlier if you pop some fleece over it, or a cloche.

'Kyoto Green' Mizuna

£4.99
(10 Organic Plants)

Mizuna is a cut-and-come-again oriental salad leaf with deeply cut, spicy flavoured leaves. It is easy to grow and well worth having in your veg patch. Harvest the outer leaves regularly from late November/early December so that the plant continues to grow for many weeks. It will tolerate a light frost. Once it starts to produce flowers in spring, you can eat the flowers and broccoli-like florets too.

Quick Growing Autumn Salad Collection

£39.99
(140 Organic Plants)

This little pack of cut and come again salad plants contains the following plants:

- Chicory x 10
- Corn Salad x 10
- Endive x 10
- Land Cress x 10
- Lettuce x 20
- Mizuna x 10
- Pak Choi x 10
- Rainbow Chard x 10
- Spinach x 10
- Spring Onion x 20
- Tatsoi x 10
- Wild Rocket x 10

Wild Rocket

£4.99
(10 Organic Plants)

This is one of our favourite vegetable plants to grow over winter. The taste is phenomenal compared to shop bought rocket and it just keeps cropping for months, right through to the following spring. Cut the outer leaves off as they reach the desired size, usually from November onwards.

Sent as bare-rooted plug plants. No plastic.

Autumn Veg Plants

Purple Sprouting Broccoli

£5.99
(10 Organic Plants)

This delicious variety of purple sprouting broccoli will produce fantastic coloured broccoli spears during late winter and early spring, possibly as early as February if it's mild.

Green Sprouting Broccoli

£5.99
(10 Organic Plants)

This sprouting variety will produce successive spears for you to harvest whilst small and tender, or you can wait until they form a larger head. You can expect a spring crop unless it is a warm winter, in which case they may come through a little earlier in January/February.

'White Lisbon' Spring Onion

£6.99
(20 Organic Plants)

For an early spring harvest, these are great to add to the veg patch over the colder months. They are perfect for pots and window boxes as they take up very little space.

Delivered September - October

'Green Curled Dwarf' Curly Kale

£5.99
(10 Organic Plants)

These plants do really well over the winter, growing slowly at first and then giving you a healthy crop of leaves to harvest in late winter/early spring.

'Nero di Toscano' Cavolo Nero

£5.99
(10 Organic Plants)

You might be able to harvest a few leaves here and there during December and January, then as the daylight hours start to increase you'll find they grow a bit faster. A good source of greens in late winter!

'Red Russian' Kale

£5.99
(10 Organic Plants)

This is a lovely kale to grow. The purple stalks look great in the veg patch when there's not much colour and you'll enjoy a good supply of healthy green leaves from December/January right through to spring.

'Sweetbell' Turnip

£5.99
(10 Organic Plants)

These are quite quick-growing, so if it is fairly mild you may be able to harvest these sweet little turnips before Christmas. They are great for roasting or adding to casseroles and stews. As the name suggests, they are sweet in flavour.

'Golden Ball' Turnip

£5.99
(10 Organic Plants)

With golden skin and golden flesh, these turnips are a real gem to grow in the winter plot. They are quick growing so should be harvestable by December if it's not too cold. They store well too, and are great for stews and roasts.

'Marian' Swede

£5.99
(10 Organic Plants)

Swede is a hardy root vegetable that is easy to grow so long as they are watered regularly to avoid splitting. It has a globe shape with purple skin colour and yellow flesh within. Planted in autumn you can expect to harvest from early spring onwards.

'Perpetual' Spinach

£4.99
(10 Organic Plants)

Planted out in autumn, spinach should produce enough leaves for you to start picking from December onwards, giving you a flurry of homegrown greens in early spring ahead of the next planting season.

'Bright Lights' Rainbow Chard

£4.99
(10 Organic Plants)

This is a good choice for adding some vibrant colour to the veg plot over winter. You can expect to be able to harvest from December through to the following spring, depending on the weather.

'Bulls Blood' Leaf Beet

£4.99
(10 Organic Plants)

Looks amazing when growing with its dark red leaves, and adds a wonderful sweet flavour to your salads. It's great to grow over the autumn and winter, providing you with leaves throughout. Once it matures, you may find its root has turned into a perfectly good beetroot to cook with as well.

Autumn Veg Plants

'Red Knight' Mizuna

£4.99
(10 Organic Plants)

You get really lovely tones of colour on this plant as it grows, making it a very attractive addition to your veg patch. And of course it's uber healthy too and easy to grow. We're sure you will enjoy it just as much as we do!

'Pancalieri' Endive

£4.99
(10 Organic Plants)

A brilliant salad plant to grow in winter. It's got a lovely crunchy texture, and if you harvest the outer leaves only you'll get new leaves from the centre for months. Protect from frost. You should be able to start harvesting in late November/December.

'Land Cress'

£4.99
(10 Organic Plants)

The taste of land cress is very similar to water cress. If you grow it under cover (a cloche or fleece) or in a milder region you should be able to harvest it throughout winter and into spring by picking the outer leaves.

Delivered September - October

'Giant Red' Mustard

£4.99
(10 Organic Plants)

We love these deliciously punchy leaves which can either be chopped finely to add to salads, or cooked like spinach and chard as a side-dish. It's easy to grow, and adds a splash of colour to the plot in winter. You should be able to start harvesting from late December.

'Spring Green' Cabbage

£5.99
(10 Organic Plants)

When planted in autumn you can expect to harvest these cabbage greens in early spring the following year. It is quite a loose leaf variety, great for shredding and adding to curries and stir-fries, or cooked in a little garlic and oil.

'Winter Green' Cabbage

£5.99
(10 Organic Plants)

These produce a slightly smaller, firmer head than the spring green variety, and as the name implies, they are ready to harvest a little earlier too., usually in January. Protect well from slugs and snails!

Corn Salad

£4.99
(10 Organic Plants)

You can get a great crop of winter salad leaves from these. Our top tip is to buy 2 sets and plant them really close together, then harvest every other plant and leave the remainder as cut & come again. A brilliant space saver and tasty too.

'Rossa di Treviso' Chicory

£4.99
(10 Organic Plants)

This is a fun little plant to grow, adding a deep red colour to your plot. Growing it at this time of year retains the sweet flavour of the leaves, rather than them becoming bitter. Harvest the whole head in early spring or just use the outer leaves earlier on in salads.

'Claytonia' Winter Purslane

£4.99
(10 Organic Plants)

This tastes similar to baby leaf spinach and grows amazingly well over the winter, especially if under cover (eg under a cloche or polytunnel). You should be able to start cutting leaves off just a few weeks after planting and you can keep harvesting right through until spring when it starts to flower.

'Frills' Mustard

£4.99
(10 Organic Plants)

Frills Mustard is such a good addition to salads and incredibly easy to grow as it's not very popular with pests. If it's not too cold you should be able to start harvesting from late November. Use it as a cut-and-come again and it'll probably keep going till spring.

Tatsoi

£4.99
(10 Organic Plants)

This is a lovely looking, easy-to-grow Chinese cabbage plant that can be harvested whole or used as a cut & come again for individual leaves for stir-fries (it tastes amazing with ginger, honey and soy sauce) and salads. It's usually ready for harvest in late December/January.

'Hanakan' Pak Choi

£4.99
(10 Organic Plants)

Great to grow if you enjoy stir-fries and Asian dishes. Pak Choi grows best when planted in early autumn, as it is less prone to bolting at this time of year. Protect it well from slugs and snails. You should be able to harvest it between December and February.

Available: Nov - Jul | Delivered: Apr - Jul

Potted Fruit Plants

Naturally grown & shipped in biodegradable pots

Sent in bio-degradable pots. No plastic.

Harvest Jul-Aug

Raspberry Canes 'Malling Jewel'

£9.99
3 canes
(3 litre bio-pot)

This early summer fruiting variety is very hardy once mature, and has a good tolerance to disease. Produces large fruits with a lovely rich red colour and excellent flavour. Needs staking.

Delivered April-October

Harvest Jul-Aug

Raspberry Canes 'Tulameen'

£9.99
3 canes
(3 litre bio-pot)

This mid-late summer season variety of raspberry is renowned for producing high yields of very large, bright red berries with a lovely sweet flavour. Needs staking.

Harvest Aug-Sep

Raspberry Canes 'Autumn Bliss'

£9.99
3 canes
(3 litre bio-pot)

This autumn-fruiting raspberry produces heavy crops of large, delicious firm textures berries from August until the winter frosts. The short, sturdy canes make them perfect for growing in smaller gardens and containers as they don't require staking.

Harvest Aug-Sep

Raspberry Canes 'All Gold'

£9.99
3 canes (3 litre bio-pot)

This variety of raspberry is similar to the Autumn Bliss, but produces large golden fruits with an amazingly sweet flavour. Perfect for smaller gardens as they can be grown in a large container and don't need staking.

Harvest Jul-Aug

Tayberry Plant "Buckingham"

£9.99
1 potted plant (11cm bio-pot)

It's a cross between a blackberry and a raspberry and it's super tasty. Ours is a thornless variety that is ready to pick once the fruit turns from red to purple. It's quick to establish and easy to grow - give it a try, you won't be disappointed!

Potted Fruit Plants

Harvest Jul-Aug

Harvest Aug-Sep

Harvest Jul-Aug

Blueberry 'Chandler' -

£8.99

1 potted plant (11cm bio-pot)

This'll produce six weeks worth of big, flavoursome berries for you! It's a good option for smaller gardens as it's not as big as other varieties and is self-pollinating so you only need one plant for a crop.

Blueberry 'Blue Crop'

£8.99

1 potted plant (11cm bio-pot)

This compact variety of Blueberry will give you a big crop of rich, sweet-tasting fruit in late summer. It is a self fertile variety, but will give better results if planted alongside another blueberry plant for better pollination rates.

Blueberry 'Sunshine Blue'

£8.99

1 potted plant (11cm bio-pot)

If you're growing in pots, then this is a great little compact variety that crops well. It's self pollinating too, so you only need one plant. It is a thirsty bush, so give it plenty of water.

Harvest Aug-Sep

Harvest Jul-Aug

Harvest Jul-Aug

Blueberry 'Pink Lemonade'

£9.99

1 potted plant (11cm bio-pot)

Providing year round colour and interest in your garden, this self-fertile variety of blueberry produces unusual pink fruits with a lovely sweet flavour.

Honeyberry 'Morena'

£8.99

1 potted plant (11cm bio-pot)

This variety ripens nice and early on in the season, so by growing a Morena alongside a Kamtschatica you can extend the season a little as well as improving pollination for a heavier crop. They make a tasty jam and work brilliantly in muffins. Give them a go if you're looking for something a little more unusual to grow!

Honeyberry 'Kamtschatica'

£8.99

1 potted plant (11cm bio-pot)

Honeyberry is definitely one to add to your garden if you fancy growing something a little out of the ordinary. It is a lovely, sweet berry that looks and tastes quite similar to a blueberry. It's part of the honeysuckle family and grows brilliantly in the UK as it's used to Siberian climates! You need two bushes though to help pollination, we recommend getting one of each variety.

Delivered April-October

Harvest Aug-Sep

Harvest Aug-Sep

Harvest Jul-Aug

Harvest Jul-Aug

Purple Chokeberry 'Aronia'

£8.99

1 potted plant (11cm bio-pot)

If you're on a health kick, this is the fruit for you! It's high in antioxidants and Vitamin C and is reported to have 3 times the antioxidants of the Blueberry and has handsome levels of minerals, vitamins, and dietary fibre. It grows very easily in the UK.

Lingonberry 'Red Pearl'

£9.99

1 potted plant (11cm bio-pot)

This is a beautiful evergreen which is native to Britain and produces bright red, tart and juicy berries.

It's a very hardy and disease resistant bush that grows well in shade. Definitely one to try!

Cranberry 'Vaccinium Macrocarpon'

£9.99

1 potted plant (11cm bio-pot)

This is a widely grown cranberry that is known for its reliability and resistance to frost and diseases. Produces deep red fruits with a lovely tangy flavour.

Goji Berry Plant

£8.99

1 potted plant (11cm bio-pot)

These are a fantastically beautiful plant to have in your garden: delicious, nutritious, and easy to grow. They'll grow in almost any type of soil, even if it is poor, as they are used to the mountainous regions of the Himalayas.

Harvest Jul

Harvest Aug-Sep

Harvest Aug-Sep

Harvest Jul-Aug

Pinkcurrant 'Gloire de Sablon'

£12.99

1 potted plant (3 litre bio-pot)

This is a slightly more unusual addition to the fruit garden with beautiful translucent pink currants that have a wonderful scent and are bursting with sweet, juicy flavour. Fruits ripen from mid July.

Redcurrant 'Jonker van Tets'

£12.99

1 potted plant (3 litre bio-pot)

This bright and juicy berry is an extremely heavy cropper with an excellent taste. The berries not only look lovely, they are perfect to use in sauces, smoothies, jams, jellies and pies.

Whitecurrant 'White Versailles'

£12.99

1 potted plant (3 litre bio-pot)

This is a very popular whitecurrant variety producing heavy crops of large, sweet, pale yellow berries. The super healthy fruits look beautiful mixed in a dish with other berries.

Blackcurrant 'Ben Lomond' -

£12.99

1 potted plant (3 litre bio-pot)

This is a lovely, low-maintenance fruit to grow. It requires minimum pruning and grows well even in frosty, cold pockets of the garden. And, to top it all off, blackcurrants are packed with Vitamin C.

Potted Fruit Plants

Harvest Aug-Sep

Harvest Apr-Jun

Blackberry Plant "Chester"

£8.99
1 potted plant
(11cm bio-pot)

Grow some blackberries in your own garden and enjoy some tasty, warming crumbles next autumn. They'll grow really well and are perfect for towns where foraging in the hedgerow is a tricky affair!

'Victoria' Rhubarb

1 plant: £10.99
3 plants: £24.99
(3 litre bio-pot)

Rhubarb is reliable to grow, even in poor soil although it responds really well to rich, well drained conditions. An annual autumn manuring will give you large crops of tender & delicious juicy stems.

Delivered April-October

Strawberries throughout the Season Collection

£12.99

A perfect introduction to growing strawberries with three varieties that'll be ready at different times of the summer to give you a nice, long harvest. Just pop the plants in and watch them grow. Strawberry plants will normally fruit for three seasons or more so they'll keep you going for a little while!

Can be delivered from:
Late April to August

Includes:
Honeoye x 3 (early season variety)
Cambridge Favourite x 3 (mid season variety)
Symphony x 3 (late season variety)

Harvest Aug-Sep

Harvest Aug-Sep

Harvest Aug-Sep

Kiwi Fruit

£8.99
1 plant (11cm bio-pot)

This is a fast growing, climbing plant that will do well in a warm, sunny and sheltered spot in the kitchen garden. It's self fertilising, producing male and female flowers on a single plant. It takes a few years to get going, but you can usually expect fruit from year 3 onwards.

Gooseberry "Invicta"

£12.99
1 potted plant (3 litre bio-pot)

You won't find a better cropping gooseberry bush than this one! It'll grow to just over a metre big, so leave it plenty of space when planting and choose a nice sunny spot. Once established will be harvestable in July and will provide you with delicious fruits for years to come.

Red Gooseberry "Hinnonmaki"

£12.99
1 potted plant (3 litre bio-pot)

This is a hardy and vigorous fruiting mid-season red gooseberry which reliably produces heavy crops of large, sweet, red berries. It is particularly resistant to mildew making it ideal for organic growing and a good choice if you're new to growing fruit.

Harvest Jun-Jul

Harvest Jul-Aug

Harvest Aug-Sep

Strawberry Plants 'Honeoye'

£4.99 - 3 plants
(7cm bio-pots)

This is an early fruiting variety that will have you enjoying your strawberries from mid-June. They're nice and reliable too so you should get a good harvest from them.

Strawberry Plants 'Cambridge Favourite'

£4.99 - 3 plants
(7cm bio-pots)

These are the ones to grow for a mid-summer harvest. They are one of the more popular varieties of strawberries, and for good reason - they are juicy and delicious!

Strawberry Plants 'Symphony'

£4.99 - 3 plants
(7cm bio-pots)

A late fruiting variety, these Scottish-bred strawberries do really well in northern parts of the country where the weather might not always be so warm. They taste and look great, too.

Delivery FAQs

First time ordering with us? Let us explain how it works...

We have two planting seasons. Spring/Summer runs from late April until July/August (depending on the weather) and Autumn runs from early September to late October.

We sow our seeds a few weeks before the planting season begins, and keep on sowing until the season is almost over so that we have a steady supply of plants that we can ship at any point during the planting season.

We ship orders on a first-come-first-served basis: If you pre-order ahead of the planting season, we will dispatch your plants at the earliest possible time once all your plants are ready. If you order during the growing season, we will dispatch your plants as soon as we can after we have shipped any pre-orders for the season.

We will do our best to keep you updated with delivery information once you have placed your order, so keep an eye out for emails from us.

How much does delivery cost?

Plants/Veg Patches/Plant Collections - £5.99-£6.99

Veg Patch Gift Vouchers - £5.99-£6.99

(this is to cover the delivery of the plants after the voucher has been redeemed.)

Monetary Gift Tokens - FREE

When will I receive my order?

We ship orders on a first-come-first-served basis: If you pre-order ahead of the planting season, we will dispatch your plants at the earliest possible time once all your plants are ready. If you order during the planting season, we will dispatch your plants as soon as we can after we have shipped any pre-orders for the season.

Spring/Summer Season: late April to early August. Seed potatoes are sent separately in February/March.

Autumn Season: early September to late October

(Vouchers are usually sent within a few days. If ordered without plants, equipment is normally delivered within 10 working days, otherwise it is sent with your plant delivery)

What happens if I am going to be away?

You will receive a delivery update email from us about 1 week before your order is dispatched. If you will be away when your plants are due to arrive, please let us know as soon as possible before the cut off date and time stated in the email, to ensure we are able to reschedule your delivery.

How & where do you deliver?

We deliver to most mainland UK addresses, excluding some areas in the highlands and some islands. See website for details. Orders are usually sent by courier, and vouchers are sent with Royal Mail. All plants are sent in biodegradable, recyclable packaging.

I live locally, can I come and collect plants directly?

Unfortunately we cannot accommodate any local collections at the farm. Please place your order online and we will deliver your plants via courier.

How big will the plants be?

Most veg plants & companions/edible flowers will be sent bare-rooted and will be between 10cm & 20cm tall, ready to be planted. Herbs and fruit are sent as slightly larger plants and come in bio-degradable pots.

How are the plants packaged?

Your seedlings will arrive carefully packed in biodegradable packaging along with a complete growing guide. You can plant them out or pot them on immediately and put all the packaging in the compost pile!

What happens if my plants are damaged in transit?

Please get in touch to let us know about any problems with your delivery, and we will either resend you the affected plants, or if they are no longer available we will arrange a credit/refund.
